

WHAT OUR BUSINESS CUSTOMERS SAID AFTER 5 YEARS - 2020

MARTIN GOSNELL - FIELD ENGINEER AT QUANTITATIVE

How has your Venom BlackBook functioned these past 5 years?

"It has never missed a beat, it has been the most reliable PC I have ever owned"

Did you have any concerns about Venom as a brand before you bought it?

"At the time I was a little worried as I had not heard of Venom before, however the reviews were good and the reseller I purchased it from strongly recommended it. It was a great choice and I have gone on to recommend it myself to colleagues and friends over the years as it is fantastic"

What do you like most about your Venom BlackBook Zero?

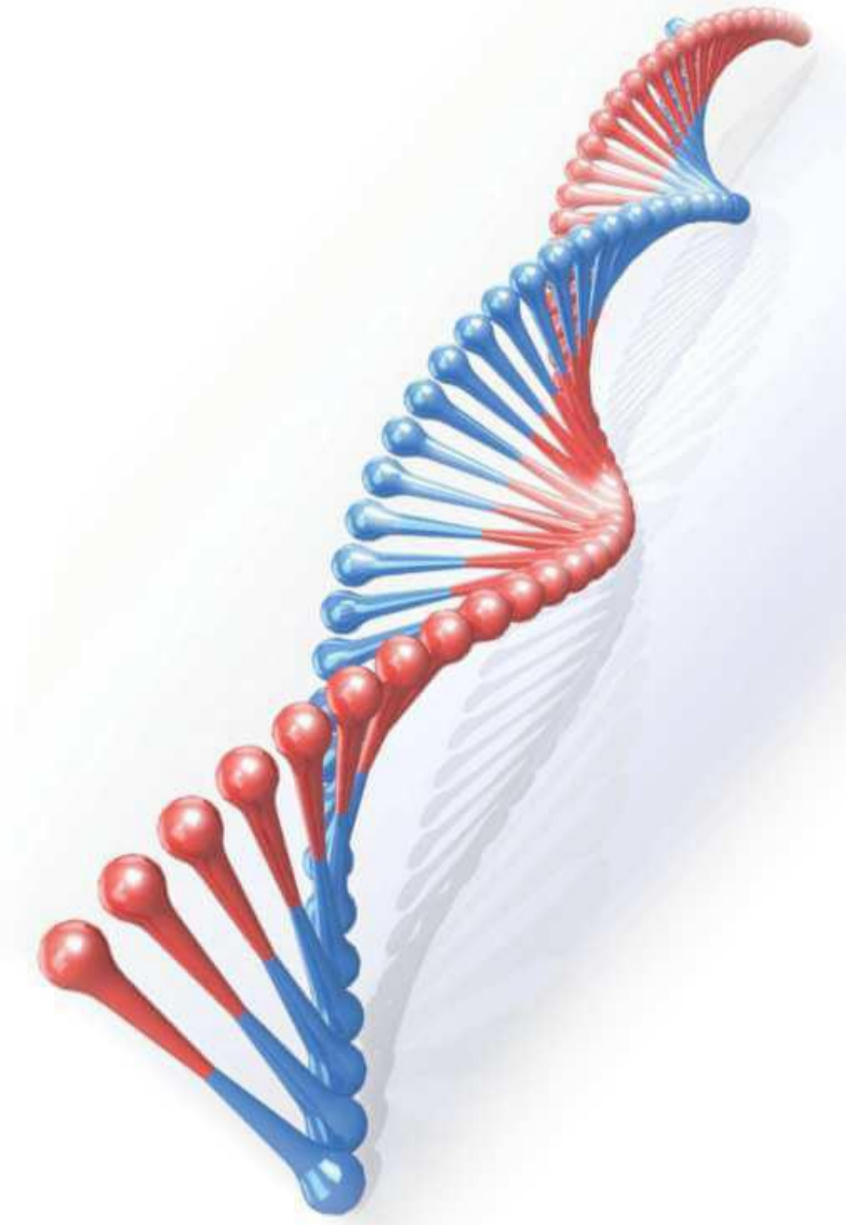

"The cooling is great, it has never crashed and is very reliable and strong."

Anything you don't like?

"The touchpad is a bit sensitive but I have adjusted myself to how I use the BlackBook Zero and now I don't have an issue with it"

Would you go with Venom again?

"I would not consider using anything else. I have owned every major branded PC over the years and this has been the best"

PHILIP REDMAN - DETECTIVE SNR SERGEANT NSW POLICE

What made you buy the BlackBook Zero 5 years ago?

"I purchased it because it was the best high end portable that was built with the best configuration. It kept going and it is still going"

Did you have concerns around Venom as a brand? Or perhaps think it was for gaming?

"Venom to me has always meant quality. For me it is a brand that means quality and not gaming like Asus, MSI or Gigabyte. Venom to me is brand that is high end and has really good build quality"

Ever need our help or required after sales support?

"I used the support a few times over the

years and it was great. I once spilt a lot of orange juice over it and had to have it repaired by Venom as well and has been fine"

Would you like an upgrade?

"As I use a lot of high end photography equipment, I think it is important that a brand makes products that last a long time, if Venom products were not good or reliable, I would not recommend them to anyone. The BlackBook Zero is a workhorse and at the moment I have a lot of new photography equipment. In future when I do want an upgrade I am now aware of the trade in program Venom is offering via the reseller I bought from and I will utilise this. If it had fallen apart I would never buy anything Venom again."

NSW Police Force

GARY LOWE - DIRECTOR AT SUCHLOWE CONTRACTING

Did you have concerns around Venom as a brand?

"I did before I bought it, however these reservations were addressed by the reseller I bought them from and they were put to ease"

Have you ever needed support?

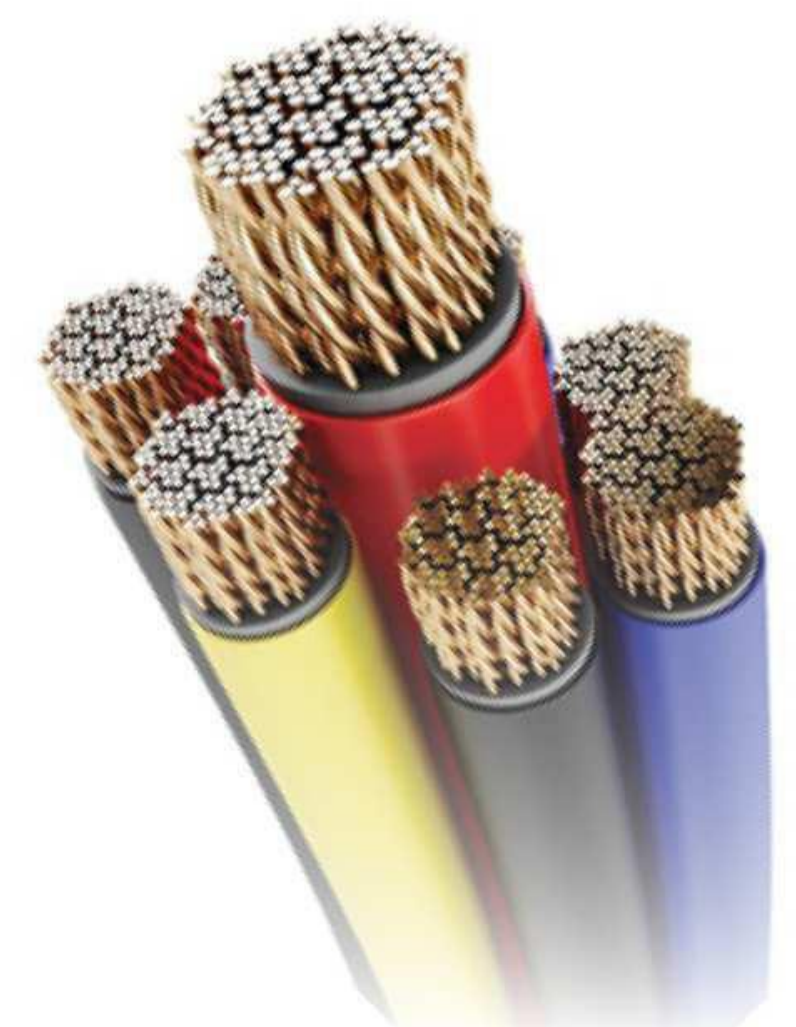

"5 years on and I have never needed support and it works like the day I bought it"

What are your thoughts around your BlackBook Zero?

"Fantastic computer that always works and always allows me to do my work"

Will you choose Venom again?

"Yes most definitely"

VENOM
